

## Transcription Key

**Italics:** Surnames in italics do not appear on the grave marker. These are maiden names that have been added to enhance the transcription.

**Parentheses:** Information in parentheses does not appear on the grave marker. When possible, the full death date and death location have been added in parentheses to enhance the transcription.

**Underlining:** Information on the grave markers has occasionally been determined to be incorrect. The corrected date appears underlined within the parentheses.

**Question Mark [?]:** Indicates an incomplete marker. The year of death or death date has not been inscribed.

**Tilde [~]:** Surnames preceded by this symbol have been found with various, phonetically similar spellings. The spelling given is just an approximation of the actual name.

**Slash [/]:** Some surnames appear in different records with varying spellings (for example, Stewart / Stuart); other surnames have been Americanized over time (for example, Javorski / Jenners).

b. = born

d. = died

doi = date of interment

d/o = daughter of

s/o = son of

w/o = wife of

BATC = Burton Abstract and Title Company [see Sources]

DC = death certificate

Gr# = grave number
